Career Objective

Driven and enthusiastic Computer Science graduate seeking to contribute as a Full Stack Web Developer in a dynamic organization. Passionate about building scalable, responsive, and user-friendly web applications using modern technologies while continuously learning and delivering high-quality software solutions.

Education

Methodist College of Engineering and Technology, Hyderabad

Bachelor of Technology (Computer Science and Engineering)

MJPTBCWR Junior College, Wanaparthly

Intermediate (MPC)

Technical Skills

- **Languages:** C, Python, JavaScript, TypeScript
- **Frontend:** React.js, HTML5, CSS3
- **Backend:** Django
- **Databases:** MySQL
- **Version Control:** Git, GitHub
- **Tools:** Visual Studio Code, Windows

Experience

Web Development Intern — Raise Digital, Hyderabad

Aug 2022 – Sep 2022

- Developed an E-Commerce website to improve product browsing and user experience.
- Built responsive webpages using HTML, CSS, JavaScript and Django.
- Collaborated with cross-functional teams to design and implement new features.
- Used Visual Studio Code and Git for efficient development and version control.

Projects

BGSCET College Website — React.js, TypeScript, CSS3

- Designed and developed a fully responsive engineering college website from Figma designs.
- Built reusable React components using TypeScript and modern CSS3.
- Implemented responsive layouts for desktop, tablet, and mobile devices.
- Created interactive sections including admissions, placements, testimonials, campus life, gallery, and contact pages.
- Focused on clean UI, component reusability, accessibility, and performance optimization.

Developer Portfolio Website — React.js, TypeScript, CSS3

- Developed a modern Google-inspired personal portfolio to showcase projects, technical skills, and experience.
- Designed a responsive user interface with smooth animations and reusable components.
- Optimized application performance and maintained a clean, scalable project structure.
- Implemented modern frontend development best practices using React and TypeScript.

Technical Highlights

- Strong understanding of Responsive Web Design.
- Experience in Component-Based Development using React.
- Knowledge of REST API Integration.
- Familiar with Git and GitHub workflows.
- Understanding of Object-Oriented Programming concepts.
- Experience building scalable frontend applications using TypeScript.

Soft Skills

- Teamwork
- Communication Skills
- Problem Solving
- Adaptability
- Time Management
- Quick Learner
- Self Motivated

Interests

- Full Stack Web Development
- Frontend Development
- UI/UX Design
- Open Source Learning
- Learning New Technologies
